Masters student, actively looking for works in the field of Optimization, NLP, Machine Learning and Deep Learning and aiming to leverage technical, analytical problem solving skills and experience in a challenging real world problem collaboratively.

EDUCATION

M.Sc in Big Data Analytics

Ramakrishna Mission Vivekananda Educational Research Institute 📄

08/2020 - Present

SGPA 8.5/10

Courses

- | | |
|-------------------------------------|---------------------------|
| - Optimization for Machine Learning | - Optimization Algorithms |
| - Computer Vision | - Machine Learning |
| - Natural Language processing | - Multivariate Statistics |
| - Inferential Statistics | - Time Series Analysis |

B.Sc in Physics

Krishnath College, University of Kalyani 📄

08/2016 - 08/2019

74.38 %

Higher Secondary (10+2) in Pure Science

Sargachi Ramakrishna Mission High School 📄

08/2014 - 08/2016

91.20 %

Secondary (10)

Sargachi Ramakrishna Mission High School

08/2009 - 08/2020

91.43 %

WORK EXPERIENCE

SUMMER PROJECT INTERN

Indian Association for the Cultivation of Science

10/2021 - Present

Jadavpur, WB, India

Tasks

- Working on (Citation Graph and Scientific Information Extraction using Sci-BERT using the research paper) Citation-IE : Leveraging the Citation Graph for Scientific Information Extraction

Contact: Dr. Debarshi Kumar Sanjal - <http://iacs.res.in/faculty-profile.html?id=155>

ACHIVEMENTS

INSPIRE scholarship (2016 - 2019) 📄

For top 1% Scorer in HS from WBCHSE

SKILLS

PERSONAL PROJECTS

Time Series Analysis: Stock Price Prediction (10/2021 - 11/2021) 📄

- Visualizations and analysis of stock price using ARIMA for modelling conditional mean and GARCH for modelling conditional variance of the process

Automatic Image Captioning using Deep Learning (04/2021 - 06/2021) 📄

- Used ResNet50 model for feature extraction of images through transfer learning and LSTM model for text generation from it

Computer vision projects (03/2021 - 06/2021) 📄

- [(1) Image Filtering and Hybrid Images (2) Detecting Lines and Circles in image using Hough transformation (3) Feature points detection and Key points matching between two stereo images using Harris Corner Detection and SIFT algorithm (4) Camera Calibration and Fundamental Matrix Estimation with RANSAC algorithm etc]

Exploratory Data Analysis and Linear Discriminant Analysis (11/2020 - 02/2021)

- EDA and Visualization on Goodreads-books dataset 📄
- EDA and Visualization on Red Wine Quality dataset 📄
- LDA on Iris dataset 📄

Lucid way to understand and compare Optimization Techniques with Visualisation and Simulation (06/2021 - 08/2021) 📄

- Armijo rule, Newton's method, Secant method, Golden Section and Fibonacci search
- SGD, Mini Batch Stochastic gradient descent, Momentum Based GD, Adam etc
